

LIGHTING DESIGNER

Professional Summary

Computer savvy and proficient with design tools for Architecture and Electro-Mechanical Design [Job Title] who continually searches for new inspiration and stays savvy on current design trends. Proficient in Adobe InDesign, SketchUp and Rhino. [Job Title] whose multi-faceted specialty ranges from design of accessories and furniture to lighting design. Motivated Visual Merchandising Designer involved in all stages of design from product inception and development to production. Results-oriented [Job Title] who delivers cutting edge and creative designs within strict time frames. Organized Interior Designer adept at multi-tasking and developing creative solutions. Successfully coordinates with vendors and manages construction teams with ease.

Skills

- Building codes knowledge
- Complex problem solving
- Strong analytical ability
- Excellent attention to detail
- Commercial interior design
- Working drawings and procedures
- Space planning methodology
- Design process
- Carpentry
- Sketching
- Rendering
- Digital drafting
- 3D rendering software
- Proficient in SketchUp

Work History

Lighting Designer 12/2013 to 11/2014

Company Name " City , State

- Interfaced with design team members, including contractors, consultants, fabricators, architects and regulatory agencies.
- Specified proper products and materials for each project.
- Carefully reviewed contractor submittals of finish materials.
- Specified proper products and materials for each project.
- Prepared construction documents and details to implement design concepts.
- Originated and developed creative design concepts.

Architectural and Electrical Design/Drafter 03/2008 to 12/2013

Company Name " City , State

- Architectural and Electrical Design/Drafting.
- Successfully resolved complex technical design issues.
- Interfaced with design team members, including contractors, consultants, fabricators, architects and regulatory agencies.
- Carefully reviewed contractor submittals of finish materials.
- Specified proper products and materials for each project.
- Originated and developed creative design concepts.
- Prepared construction documents and details to implement design concepts.

Architecture Intern 05/2007 to 02/2008

Company Name " City , State

- Consulted with clients to determine architectural preference to meet overall design goals.
- Interfaced with design team members, including contractors, consultants, fabricators, architects and regulatory agencies.
- Carefully reviewed contractor submittals of finish materials.
- Specified proper products and materials for each project.
- Facilitated requests regarding product information, installation methods and product upgrade options.
- Originated and developed creative design concepts.
- Prepared construction documents and details to implement design concepts.

Senior Electro-Mechanical Designer & CEO 01/1990 to 01/2005

Company Name " City , State

- Raytheon E-Systems.
- Motorola.
- Cadence.
- Consulted with clients to determine architectural preference to meet overall design goals.
- Researched industry in the area of green building and environmental design.
- Assisted clients with budget considerations regarding products and materials.
- Successfully resolved complex technical design issues.
- Interfaced with design team members, including contractors, consultants, fabricators, architects and regulatory agencies.
- Facilitated requests regarding product information, installation methods and product upgrade options.
- Originated and developed creative design concepts.
- Prepared construction documents and details to implement design concepts.

Senior Electro-Mechanical Designer 02/1986 to 11/1989

Company Name “ City , State

- Successfully resolved complex technical design issues.
- Interfaced with design team members, including contractors, consultants, fabricators, architects and regulatory agencies.
- Specified proper products and materials for each project.
- Originated and developed creative design concepts.
- Prepared construction documents and details to implement design concepts.

Design/Drafter 05/1980 to 01/1986

Company Name “ City , State

- Consulted with clients to determine architectural preference to meet overall design goals.
- Successfully resolved complex technical design issues.
- Interfaced with design team members, including contractors, consultants, fabricators, architects and regulatory agencies.
- Specified proper products and materials for each project.
- Originated and developed creative design concepts.
- Prepared construction documents and details to implement design concepts.

Education

Bachelor of Fine Arts : Interior Architecture 2013 The University of North Carolina - City

Interior Architecture

- BIM and Design Graphics coursework
- Continuing coursework in Sustainable Design
- Architecture coursework
- Color Theory and Perspective course

Historic Conservation & Adaptive Re-use Sustainable Design Practices Energy Efficiency in the Building Envelope : - Historic Preservation sustainable design practices

energy efficiencies in the building envelope

Associates : Applied Science Architecture Technology Wake Technical Community College -

Applied Science Architecture Technology

- Recipient of Home Builders Association’s Scholarship
- Recipient of Merit’s Scholarship
- Building Construction seminar
- BIM and Design Graphics coursework
- Architecture coursework
- Officer of Architectural Club

Construction Materials & Methods Building Codes Solar Technology Civil Engineering Construction Estimating Project Management : -

Drafting Certificate : Electrical and Mechanical 1980 Island Drafting & Technical Institute - City , State

Accomplishments

Lighting Design for Rex Hospital and Duke Stadium Press Tower

Skills

AutoCAD, Cadence, Client, Documentation, Drafting, Estimating, Leadership, Team lead, Lighting, Materials, meetings, Motorola, presentations, Press, Project Management
